

Secretary's Report, AGM 2024

Weekly email newsletters have continued to be sent out, primarily to encourage members and other readers to attend our networking events. Currently our lovely secretary is engaged in migrating the email list from Mailchimp to Mailerlite, as this will enable us to have more functionality, plus the ability to have more than one list and more than one person accessing the software.

Other than that, our secretary's main job is to field incoming enquiries, usually by email and phone, but also the occasional item of post.
